284 DAYS PAST

THURSDAY

82 TO COME

Breast Cancer.

It is strange that so many surgeons still doubt the possibility of the operative cure of breast cancer. This skepticism is the cause of much harm. For if the surgeon believes that his work is useless or at best merely palliative he will do an incomplete operation or at least he will not take the infinite pains which the complete removal of the growth requires.—
M. N. Hadley; Journ. Ind. S. M. A.

Weather

Temp.

a lovely warm day
I took the girls to school
Got a lot of bottles at Mrs
McLeary's. Melba went for them
Melba & I went up to Lewis
for little sport, she ran
away for the first time;
Albert is up for some order
Bevil was over for to borrow
Maudie's wheel. Mr Robinson
the junk man was here &
an old tramp for 13
