

Said. Davis, May Perry & Gladys Fisher came over with her after church. It has been cloudy and cold all day.

Monday November 15th

Dad. got a good day in plowing to day but didn't quite finish the oat stubble. I spent most of the morning tidying up the rubbish between the wood shed and the shop and cleaned the windows and swept down the columns in the ^{horse} stable. This afternoon I chopped down the rest of the cherry trees which were along the plum arch and fence and started to get a trench dug for my hedge. Mally Bish came in to night to get a loaf of bread. He brought Emah over a sack of flour the other day to have her bake a loaf or two of bread a week. Very windy and cold all day. It snowed a little and is freezing hard to night.

Tuesday November 16th

This morning ~~it was~~ pretty cold I got Dad. to help me move the colony house. It took quite awhile to get it on the skids but once it was loaded it slid along in fine shape. We put it in the yard where we set out the raspberries. Dad. went right back and planned when we got it over and has planned all afternoon. He finished the oat stubble and got

started to plow in the weeds. I separated the chickens put the pullets in where the cockrels were as that is to be their winter quarters. put the cockrels in where the old hens were and put the old hens in the colony house. I then ran the wagon out of the shed and started to pick up some apples off the ground in the orchard for cider. I picked all the afternoon but didn't get the wagon box full. It was milder to night but was snowing quite hard about dusk.

Wednesday November 17th

Fruit came over with Dick last night to stay until so he Frank and I picked up a few more apples and took them up to Walker Waddis for cider. Dad. drove down in the buggy and got two of the pegs from down at Auntys for us to take up as he didn't want us to drive way down around that way. We didn't get back till after one o'clock. We didn't have quite enough apples we filled the two ten gallon kegs and put about thirty in the barrels. we came back by town and left a peg at Hubbs and one at Auntys. Dad. drove Aunty up to the cemetery this morning and had to go over to Guffee's to thrash this afternoon. Aunty stayed here to dinner and I drove her back this afternoon. when
