THURS. JULY 14, 1898

Wea.

We got up this morning and after breakfast we picked the berries and got 10 lbs. I canned them and did up the red currants and attended to the other house work.

I baked bread and hens today so I had quite a busy day. I went up to Henderson's just night for a while.

Ther.

FRIDAY 15

Wea.

I rose again and made the fire, and we had the breakfast over Lencie went to rake hay he was at it all day. I was mending the boys clothes today. They enjoyed their visit to Grand Valley very much.
