

Sunday, September 12

255 DAYS PAST

110 TO COME

The Sensitive Gastric Mucosa

is likely to be distinctly irritated by the regular administration of the metallic salts of iron. The ferruginous content of **Pepto-Mangan (Gude)** is in the form of an organic peptonate, its most tolerable and acceptable form. It may be given regularly as long as hematinic and tonic medication is necessary, without irritating the stomach or producing constipation.

Weather

Temp.

A rained off on all days
We didn't get to church but the
girls & I went to Sunday
School, & then we all went over
to Mr. Goves in the evening.
The soldiers all marched to
the English church, this
morning & we could hear the
band playing out here
