145 DAYS PAST

221 TO COME

A Creator and a Re-Creator.

To repair broken-down red cells is the urgent indication after the destruction of the parasites, in malarial infection. Pepto-Mangan (Gude) initiates and accomplishes hematic reconstruction, as it acts as a creator of new red cells and a re-creator of those partially destroyed. It also stimulates the formation of hemoglobin and acts as a general tonic reconstituent.

Weather

Temp.

A very warm day
 Mella had a holiday, she
 & Maudie went to Kingmill
 for bread. Then to eight
 went down to Wilfred's for
 to see the sky rockets. Evelyn
 was over for eggs. I had
 a fire in the summer
 kitchen for cooking the
 spinners scraped the road
 the second time Mariah &

Aunt Bella took me to the party
