202 DAYS PAST

Sunday

164 TO COME

**Surgical Suggestions.**

A uniform enlargement of one buttock, developing spontaneously and not of subcutaneous origin, is probably due to a subgluteal lipoma. Here, too, however, a hydroma must be thought of.

A psoas abscess occasionally points in the outer part of the groin (i. e., close to the anterior spine of the ilium). When there is no evident spinal deformity to suggest the diagnosis the swelling is apt to be mistaken for a growth.—  
*Amer. Journ. of Surg.*

**Weather**

Very warm

**Temp.**

Mr Braund's young people  
was all here for dinner,  
Maude, Nella & I went  
to church, Huston  
Wright preached
