

to tea and put me in at Gauffer's. Glad also stayed and we then didn't go to church like the family but stayed home and washed the dishes and played with Charles the kitten. I came home early and brought Mt Dick with me. Just as I was about ready to get into bed to-night I heard the screen door open and then the kitchen door very quietly and I watched it open quietly and stealthily for it seemed like a long time and I didn't know what on earth was coming when Frank stuck his head in, he had been out some where and I didn't know it. It was rather dark in the bed room and I was sure he was in bed, so I was getting ready for a scrap. It has been a lovely day but cloudy.

Monday November 7<sup>th</sup>

I cut corn all day and have about twelve shocks more to cut to finish the field I thought I would have finished but there are two more rows of corn in the last row of shocks and it makes a big difference. Dad ploughed all day and finished the piece he was at. Edmond England was in with a Court of Revision notice that some body had complained that my name was wrongly omitted from the voters list but I guess I don't have to go down. Another nice day but windy & cloudy.

Tuesday November 8<sup>th</sup>

We were up fairly early this morning and Dad got a good morning in ploughing. Frank found one of the Ram lambs dead this morning so we concluded he had got too many apples so Frank and I got the roll of wire from behind the barn where it had been around the stack and put it up where it was before from the orchard fence over to the chicken yard and shut the other two runs in the plum orchard. I then went out and finished cutting the corn it was an awful job as the wind was very strong, and it took me nearly till noon when I got up. Frank and Felix Perkins had a "hickey" on the pump and were fixing it. The rods had come disconnected as the collar where the lengths join had worn out against the pipe. Aunty Alice came over to dinner, she was going to pick apples but it was too cold & windy. But she picked up a lot of hickory nuts. Mrs. M. Birds was here too so we had an exceedingly interesting dinner party especially when Dad & Felix got arguing about the new school. I set out some rose bushes Aunty sent over after dinner & Dad lost all the after noon working with Felix. Frank stays home too. I drove Felix home about four o'clock and got Joe shod at Joe Howells. Very cold cloudy & windy.
