

cutting the East side of the field about 5 o'clock and got it all set up, Frank had a very sick turn just as he finished, so I brought the team up and in the cows, we did not get up much in corn for while I was milking we had a heavy rain, but it cleared up in time for Hattie to go down and meet George and Miss Sutherland, we all had tea when they got back, very cool

Sunday August 31st

It was showery all morning nothing much but not nice to be out in. Hattie, George and Marion got ready for church but it rained when they were ready to start so they did not go and when it cleared off Dick and I drove down with cream for Auntie and found out there was no service. Alice came over in the afternoon and stayed to tea Lila was over too. Dick came over in the morning having come up from Toronto last night by way of Gault. Cold and damps

Monday, September 1st

We were all up early this morning to get George, Marion and Frank off. Frank went down on the wheel, I drove the others down and got there just in time to see the train move out. Marion ran and caught it, but as George could not she and Frank got off and went by way of Brantford. I came back home and by the time I got the cows up and milked and all the other chores done there was not much left of the forenoon. Enah and Jim drove over to Shauds School house and Dick and I walked out, had a very nice time in spite of several light showers, but poor Mrs. Cooks Ryssee fell and broke her arm. Hattie and Dick went with her in Jack Walker's car to the doctor. There was a good number there in spite of the day being so showery. It seems a long time to Thursday night and it is quite a grind going it single handed but I guess we will manage it.
