Sunday, March 15 16

75 DAYS PAST

291 TO COME

**PEPTO-
MANGAN
(GUDE)**

Is the STANDARD in the class to which it belongs.

Is rapidly and easily assimilated.

Produces a rapid increase of red corpuscles in the blood.

Is perfectly miscible with sherry, milk, or water.

Is pleasant and agreeable to the taste.

Creates appetite and tones the system.

Children like to take it, and it can even be given to infants.

DOES NOT AFFECT THE TEETH.

Does not Constipate or Produce Gastric Disturbance.

Very bright & warm for a little while this morning then turned colder with a raw east wind. John has been helping Clarence, draw wood all day. John was down to sheds, took the milk wagon shafts down for Albert to take back to Mr. Carter. Girls drove to school & cleaned the dining room bedroom & clothes closet
