

Sunday July 1st

I drove Mabel down to Mrs. Walker's this morning and went on down town with some milk for Mrs. Lawson & Auntie Alice. I then came home gave the car a little wash & put a few finishing polishes on my horn although it is far from perfectly polished and right after dinner. Muriel the Wumpas and I drove down town all except the Wumpas whom we left with Mabel at Mrs. Walker's. I went up and joined the band all resplendent in our new uniforms and we went through the old performance of taking the Oldfellows up to the cemetery. John J. made a speech up there. I went in to see Mary for awhile when I got back she was sitting up to day. I then called for Muriel but she had gone up to her uncle's for tea so I got Mabel & Wumpas and after tea the Monroes came out & left Janet to stay with Mabel till Muriel came back and I went down to the band again & we put on a concert in the park. It rained hard out here this afternoon but was only a squall in town.

Monday July 2nd

I went down town this morning with milk and cream the cream for Mrs. Zealand and I left Mabel at Mrs. Walker's on my way down. I saw one of Dad's heifers out on the road and took him back to put it in. She had got out of Frank's gally. They had just turned her in this morning. This afternoon I was with the band and also this evening. The celebration was the same old performance. Hordes of people and cars but not much else. The crowd seemed pretty well behaved and I didn't hear of any accidents which was fortunate considering the multitude. Muriel and I drove down town after dinner and left the Wumpas at Auntie's for the afternoon. We brought her home for tea and got Mabel after tea. I got home after midnight. Fine hot hot.

Tuesday July 3rd

We had quite a chase this morning after a couple of head of cattle that Harvey Evans was trying to drive back to Reutor. They got in here and into Davis's & finally got back home so Harvey gave up the chase. Charlie Shand assisted nobly on horse back but the heifer could jump fences that Charlie's horse couldn't so she
