171 DAYS PAST

194 TO COME

Post-Hemorrhagic Anemia.

A Mass. physician writes: "I have used Pepto-Mangan (Gude) especially for the anemia following operations when there has been considerable loss of blood, as tonsil and adenoid operations. The results have always been prompt and satisfactory so that I have never seen any reason to change to any other form of iron."

Weather

Temp.

cold and then got warmer.
Eugene and I went to spring-
water with a grist, tried
to catch some fish but
could not. Eugene & Aleta went
to St. Thomas with Milly.
Got ^{Eugene} a hat and and
new pair of everyday gloves.
Melba went after Aleta
with Bill.
