

I thought I could get Clark in the bank easily but he said he had been out every night so far this week & didn't want to go, and Dick didn't and Hazel didn't. I got Dick to telephone Woodger and he said he'd go and then I got Milton Cruise and let it go at that. I got a hundred of sugar and came home. I didn't do much this afternoon. Charlie Swanbury came over and said old Jones had telephoned Jack Martin last night to have Dad go up there and see Nellie & the kids, they are both down and he doesn't know what to do. Dad did intend to get some hay over but thought he had better go up and see Jones and then some thing happened that we didn't get started in time and it wound up with Dad & Frank going down town in the hub sleighs with Harry & the new man and getting the mail and hauling enough hay over on the wagon box for tonight. Norman Holden came over about five o'clock to get a ball for his horse. Frank & I got started a little late for Simcoe but didn't have to wait at all in town as the load was all ready at the Bagley's when we got there. It wasn't a very nice night going up as it was snowing but wasn't a bit cold. We got up about half past eight and had an hour and a

half's good skating as the ice was in good shape and then had a little supper before we came home, we got home about half past ten and they said they had a good time. Frank drove up and I drove home. Frank stayed down town all night at Auntie's as she promised Auntie Alice she would have one of us stay every night. Dick was at the bank when we went past and came home with me. There was a mince pie on the table and some cocoa that Ench had fixed so I had a cup of cocoa and some pie and Dick half the pie.

Sunday March 19th

I would have gone to Sunday school this morning but didn't feel very well after breakfast and sat around till I was almost too late to get ready for church, however I did get ready. John Weiss & Lloyd Crysler came in for a few minutes. John Weiss wants Dad to go over and have a look at Mildred who has lymphangites & gain. They left in time for Dad to drive Ench & me down, Dad took the baby with us and they came back home. I stayed down at Auntie's to dinner and all the after noon and evening at the Bagley's. Mr. & Mrs. Bagley were out in Townsend visiting and had not got back at ten o'clock when I left. Essie & Mary made
