105 DAYS PAST

260 TO COME

**Profound Anemia After Myocarditis.**

A physician in Mississippi writes: "I desire to state that **Pepto-Mangan (Gude)** has acted most happily in the case of my little son. He was suffering from a profound anemia, superinduced by an attack of myocarditis, and after 10 days treatment his color was much improved as well also his general condition; in fact, he seemed to be another child."

Weather

Temp.

Rather cold & rained a little this afternoon. Maude & I went to Albus to night for the mail. John Eugene & Shella went to the north place & Maude stays with Mrs. Dance. Alva & Hazel & Creus went along over with them. Got a letter from Ansty Peeples. Polly 12, Mydia 4, Billy 6, 20 of miles up till now.

Billy 5 - Polly 12 - Dell 12 - Mydia 9
