

Friday  
~~Thursday~~ June 7<sup>th</sup>

Frank and I went up to Tom Thompson's with a team this morning. Tom said he would come down to mow after noon and plant our corn for us as Dad thinks we can have it ready by then. I shelled corn all day after I got back from Harris. The three bushels in the crates in the crib made about a bushel and a half of shelled corn. Dad and Frank cut down a dead apple tree in the orchard this afternoon and this afternoon worked both teams on the corn ground. To night Frank and I went over to Horne Myers to hoe J. J. & A potatoes. Nixon Blake, Robeson and Charlie Stitt were the only others there but we got one patch too sandy on all-hoeed, if there had been more out we would have got them all-hoeed. Sunny but very cold west wind all day.

Saturday June 8<sup>th</sup>

Dad and Frank worked both teams on the corn ground all day and have it very nice shape. I went over to Duaneburg this morning and borrowed their seed drill and sowed ten rows of mangels in the same field just north of the potatoes. I sowed one pound of seed which we had and then got another half

pound from Duaneburg and sowed it. Tom Thompson came at noon and planted corn with the machine all the afternoon but didn't finish but says he will come back Monday. The machine is certainly a rig. It is the first one we ever saw work and it is hard to believe that the rows will be in line cross ways but Tom says they will. I cut most of the lawn this afternoon. To night Frank and I went downtown for a little while. Cold wind all day and a white frost last night.

Sunday June 9<sup>th</sup>

Frank and I went to Sunday School this morning as Jack asked me ~~last~~ yesterday if I could get down. First as we got there we saw Jack leaving in a car with two fellows, however Aunty Maude took the class. Sid went down to Sunday School with me he said he liked it fine. Dad and Eval went down to church and brought Miss Phipps with them. Dad was going to go home again to put the sheep in as some of them were out when he left, but I came home and put them in and then brought Joe back for them to bring home. Frank stayed down at Aunty's to dinner and went for a walk with Lila this afternoon. I went downtown about
