85 DAYS PAST

Tuesday

281 TO COME

That Anemic State,

due to toxic or metabolic causes, with destruction of the albuminous elements of the blood, and known as hemolytic Anemia, requires prompt and direct attention. **Pepto-Mangan (Gude)** reconstructs old, broken down red corpuscles and creates new ones, without disturbing digestion or causing constipation.

Weather

a lovely day

Temp.

Melba went & got Maude Abell & took her home, Maudie & Grace went to school, Mr. Sawyer came & got a load of hay this morning & to night. Came & got eight of Mellas rabbits. Mr. boy was over this morning. Mr. Dran a crocheted hook in my finger & I almost thought the world was coming to an end. Maude Abell finished Maudie's suit the first suit she ever had.

Belle & Maudie
