

Sunday October 5th

As it was raining a little this morning Dad, Frank and me drove to Sunday school and Frank rode his wheel. Dad and Cook came down to see I stayed at Aunt's to dinner and spent the afternoon with Mary. We went up to Miss Martin's and saw the Pattersons but they weren't home. Dad took Vernon for a drive this afternoon and left word at Aunt's that I needn't come home for tea so I didn't and went to church with Aunt, Alice & Mary. It was raining when I started for home so I turned in at Aunt's. I found Frank there too in bed.

Monday October 6th

Frank and I went home at half past five this morning and made our departure so quietly that Aunt came down at six to call us and Alan Law were in while we were milking to see if we wanted to thrash our seed. They decided to thrash up the gravel on account of Sim's Fair. Dad told them to come on down so they came about noon. Frank and I hauled two loads of

coal this morning and hunted up thrashing hands. We hauled a load of Chestnut coal which was very poor looking stuff and as we had to take one third pea coal we took next time half a load of pea and half of soft. We thrashed all afternoon and got the mow over the granary cleaned out and about four bags of seed. I went down to hand practice to-night but there were so few there we didn't have any. Pete Holmes was having a dance in the hall so I went in and watched them for awhile. May Perry and Mary came while I was there to look on for awhile so I went home with them. There wasn't much of a crowd there.

Tuesday October 7th

We finished thrashing about ten o'clock and got out about seven bags and a half of seed. I got ready and went to Sim's Fair on the twelve o'clock car but as it was the second day there wasn't much there. I saw Neff and a Mr. Manning a Y.M.C.A. man and had quite a talk with them. I came back at six with Vernon, Rebecca, Molly, Dick & Alan Libbit. The Zealandis rowed me across the pond from Lucy's steps. Gypsy had eight puppies last night.
