313 TO COME

To Impart Vital Power,

and to quicken the formation of erythrocytes and hemoglobin, nothing is equal to **Pepto-Mangan (Gude)**. It establishes, sustains and maintains the vitality of the circulating fluid and thus meets the imperatively necessary therapeutic indication in Anemic, Chlorotic and generally devitalized conditions.

Temp.

Started to rain & sleet about four o'night. Aleta came for dinner, left baby with us & she went to Ayler's with John. When she had her tea she went home in the rain. Mr. Dunlop went down to view Boydes farm this forenoon & was there about one hour & a half. I quitted Maudie's quilt that my mother pieced & m'ght. Maudie has stayed up all day & day Billy 5-
