228 DAYS PAST

138 TO COME

Geriatric Aphorisms—No. 17.

Infectious diseases except such as develop in localized lesions as erysipelas, are rare and serious and do not run a typical course.

A recurrence of early tuberculosis is mild; a primary tubercular infection in old age is fatal.—*Nascher; Amer. Med.*

Weather

Temp.

Fine + just warm enough to be comfortable. Did a lot of odd jobs. Drew in barley + oats. Mrs. Youngs came + helped paper. Evelyn was over in the evening. Only got a few eggs, about 2 dozen. The milk went to - night instead of to - morrow morning on account of Irishmen's picknick to morrow. Mrs. Mc Lay phoned out about post office key. Melba + Evelyn went to Evelyn's for some sweet laughs. Mariah was up at 4.45. A. M.
