

Tuesday June 15th

Dad. put down the dining room carpet for Ersk first thing this morning and then took Belle out and cultivated corn till noon. It looked so dark and rainy that we didn't get the team in to plow corn ground as we had intended. I hoed potatoes in the garden till nearly noon and then had to go back to put the cattle out of the back field. It sprinkled two or three times but didn't amount to much. Dad and I cultivated and hoed after dinner till about three o'clock when we saw a terrible storm coming up from the north so we went to the house.

The storm rolled up pretty quickly and when it broke it was a fierce one and lasted till nearly six o'clock. It let up at intervals and in one of these Dad went after Ted. I painted a show card lesson. I went down town to night with Cliff Town who come in after tea with the cream can. It was raining again when I started for home so I stayed at Centip.

Wednesday June 16th

I got home soon after 5.30 this morning and went back after the cows. After breakfast I felt rather tired from tramping around in the mud with Frank's rubber boots on. About ten o'clock I went down to have Dr. Lemmon look at my tooth which the filling came out of. He couldn't look at it till about

noon and said he wouldn't have time to fix it till tomorrow afternoon. I stayed at Centip to dinner and didn't go home till after two as it looked so rainy. I didn't do much all the afternoon except try to put a handle on an umbrella of Mary's. In night I went down to band practices. We had it over Ted. Nick's new garage and it was fine. It certainly is an enormous place. Every one seems to be of the opinion that Ted will never get his money back. Raining all day.

Thursday June 17th

It rained or drizzled nearly all day so we didn't do much thing out side. Dad & Ersk have been very busy house cleaning, papering & painting. I "messed about" and did a little printing. I went down town right after dinner and took my horn down to Ed's as he has some fine polish down there I made it look quite a bit better but it needs a bit more yet. I went up at three o'clock to Dr. Lemmon's but he couldn't fix my tooth for another hour so I went down to the lake where I found Jim and Joe fixing up their bathing houses. I took the contract to paint some signs for them. I went back to Bill's about half past four and he filled my tooth. I then come home and did chores and after tea went down town again as I wanted to see the Jim boys about some skin game.
