294 DAYS PAST

71 TO COME

Treatment of Erysipelas.

A mixture of one part of ichthyol with two parts of alcohol gives prompt benefit when used locally. The preparation should be freely applied, after careful shaving of the hairy surfaces, until the involved areas and even the surrounding zone of healthy skin have acquired a dark brown color.—
Dino, Rev. Med. de la Suisse Romande.

Weather

Temp.

A fine day
with heavy dew last night
Mellie & I worked to night
John & I ploughed all day
Joe & I picked apples.
Adams bought a new cow
at Bowshers Sale. John
was down to Adams Bingham
to night. Bert & Aggie were
here for a few minutes
to night
