

and took her to the slaughter house, where Karl killed her for us. Frank stayed there the rest of the afternoon to watch him. I took the hog crate back down town and then came home with the team. Dad, Eulah & the baby drove down town in the cutter soon after I got back and brought Mary back with them to tea. She was here all evening and I drove her home about half past ten. Nice winter day.

Thursday December 13th

Frank and I with the baby drove down to the slaughter house first thing this morning and got the remains of poor old Gladys and Dad spent the rest of the morning cutting her up. Frank and I then went down town and around by the mill where we got a couple of bags of feed. It snowed hard all the afternoon and we didn't do any thing much. Arthur Penton was over for quite a visit and told us that he had got a circular saying that there would be a meeting to-night to make arrangements for Neff's Short Course this winter so Frank and I went down and Neff gave us each a route to canvass to create a little enthusiasm over the course. Much milder to night.

Friday December 14th

We have just done chores to-day and this afternoon Dad,

Gid and I drove Queen down town for exercise. Frank and I went down to a Union Government meeting to-night which was pretty good but late. Prof. Law of Knox College & Frank Ried were the speakers. Cold and clear all day, very frosty to-night.

Saturday December 15th

Did chores most of the day. Frank and I drove Queen down town this afternoon and went down to Aunt's to tea to-night & spent the evening ^{very cold}.

Sunday December 16th

I went down alone to church this morning and just sat around the house all the afternoon till it was time to chore. Went down to-night and spent the evening with Mary.

Monday December 17th

Dad and I drove out to Wiggins this morning and Dad voted for me as he said he wouldn't vote at all for himself but as I was entitled to a vote but through neglect was not on the list he would mark the ballot the way I wanted it which was of course for Charlton & Union Government. Dad's finger is very painful and he can't do a thing with it. To-night Frank and I went down to hear the returns. Union Government is safe. Charlton got bigger majority than Wallace did.
