51 DAYS PAST

314 TO COME

To Ward Off Infection.

When la grippe is epidemic, a general reinforcement of vitality is indicated, for the purpose of warding off bacillary invasion and its unfortunate consequences. Pepto-Mangan (Gude) restores the structural integrity and sufficiency of the erythrocytes, increases their hemo globin content, and acts pleasantly and certainly as a general systemic reconstituent.

Weather

Cold but fine

Temp.

I took the girls to school & got them
saw Mrs Ashbaugh & Mrs Kline.
The boys was drawing bugs wood
all day, in the afternoon Clarence
Cooper helped them. Brought home
an new pair of rubbers with two
buckles for Eugene. Got some
cotton & made one new waist for
Milla. Pa. was over to Mr Coopers
in the evening. Sleignins
Had two more little Slarubs

Billy to Nydia 6
