130 DAYS PAST

235 TO COME

The Eye in Diagnosis.

It has been estimated that from 70 to 75 per cent. of systemic diseases show some manifestations in the eye; so we can readily see the advantage of an examination of this organ. We will consider some of the common conditions, viz.:

Diseases of the Circulation.

(a) Valvular disease sometimes causes retinal hemorrhage, pulsation of the retinal vessels.

(b) Endocarditis, embolism of the central artery of the retina.

(c) Arterio-sclerosis, characteristic retinal change.—*Russel; Diet & Hyg. Gazette.*

(Continued second page following.)

Weather

Temp.

Sprinkled a little
this morning but the rest
of the day was fine. Mella
& Evelyn went to Sunday
school, but Maudie was
not well enough to go.
I was home all day. Eugene
is now going away. Had
one Goshing hatch to day
