285 DAYS PAST

FRIDAY

81 TO COME

During the Prevalence

of Typhoid, Grippe, Malaria, etc., freedom from infection depends upon the physiologic resistance of the tissues, which, in turn, is largely dependent upon hematic sufficiency. **Pepto-Mangan (Gude)**, by its reconstituent properties, establishes a blood supply of sufficient structural and functional integrity to withstand morbid influences.

Weather

Temp.

Warm, sprinkled  
a little about ten to night.  
Maudie & Grace went to  
school, untill noon, had a  
half holid'ay. I washed &  
Melba did the house work,  
Gene Appleford & Mac  
came for Grace, Cecil  
was over a little while.  
Melba & I picked seven  
chickens for market.
