4 DAYS PAST

FRIDAY

362 TO COME

Geriatric Aphorisms—No. 1.

The hardness of the xiphoid cartilage is an index of the degree of aging. If resilient in advanced life the anatomical changes are slight; this includes the arterial changes. Early hardening indicates early senile changes.—Nascher; Amer. Med.

Weather

Temp.

Warmer, snowing
a little to night. Melba came
home in time for supper.
I ironed this afternoon. Sold
a lamb for twelve dollars,
to Mr Corbin. Albert helped
John cut wood this after-
noon.
