248 DAYS PAST

Thursday 118 TO COME

Syphilo-Dermo-Urologic Aphorisms.

Lupus erythematosus has usually been looked upon as a disease that is very difficult to treat successfully. Dr. William S. Gottheil has announced that, in his experience, no treatment is so efficacious, manageable, painless, and rapid as that by means of solid carbon dioxid. The method of using it is, in the form of a stick lightly pressed for twenty to fifty seconds at a seance.—*Amer. Journ. of Derm.*

Weather

Temp.

a fine day

Cool to night. Girls went to school. Mrs McLeay was out, Bert brought her she brought us a basket of peaches. Mella & I went to King mill & got three dozen cinders. John sowed his wheat & Mella & I washed
