

Friday February 3rd

Frank went down town this forenoon to the Capitol Theatre to see moving picture of a Fordson tractor. I took in the sheep classes and a period at the Field Husbandry. This afternoon we had a lecture on book keeping and record seeds. To night Steens and Duno more went down town and Bill Frank and I held the fort and fixed up a few surprises for the boys when they got home.

Saturday February 4th

We had a long lecture this morning on the sheep carcass that they killed on Thursday and one of the officials of the Wool Grower's co-operative gave us a interesting explanation of the grading system. This afternoon we went up to the College till about 3 o'clock and saw how to go about trimming up sheep for the show. We didn't take a chance at it because we had to leave early. I left at 5:40 and Frank & Bill at 5:50 for Toronto. I didn't get home till the 12 o'clock car as I had to wait in Kitchen for half an hour and for over 2 hours in Galt. I had my supper there and saw a piece of a Doug. Fairbanks show "The Gance". Dick was still up when I got to Auntie's and he drove me out home. The snow was gone here. I changed all day. Mary had a bad cold and barricaded the doors against the high wind. All

Sunday February 5th

We got up late this morning and didn't have time for any thing this morning but got ready to go over to Willie Shands for dinner. We were there all the afternoon and spent a very enjoyable time. The kids especially had a good time as there is so much room in the house over there to romp. We left about 5 o'clock & drove down town with County Clerk's sister. I drove down again to night and saw Dad for a while after church at Auntie's. I took Mabel home this morning before we went to the Shands and called for her to night about 9:30. She was invited to Shands too but thought she should go. Bright, cold wind.

Monday February 6th

Mary planned on getting an early start for Simcoe this morning but Tom called up and wanted me to go over to see the hams of the pig we killed. Both the hams in the two hams were broken and the greater part of the meat unfit for use. We can't figure out how it happened. I got the eggs over there and we took them down town so that it was about noon when we left Dover. Mary went to Galt's where she bought a good deal of material for dresses and one thing & another. I took the car to the Wash service station and had it.
