316 DAYS PAST

Tuesday

50 TO COME

Surgical Suggestions.

It should be remembered that infection of the bladder mucosa is capable of producing symptoms of retention.

An intractable tuberculous cystitis that is not improved by silver nitrate most probably is associated with tuberculosis of the kidney, which causes reinfection.—*Amer. Journ. of Surg.*

Weather

Temp.

*Rained last night.
Maude went to
School. I put Honey
in for the bees.*
