

Wednesday June 28th
 Frank has been picking straw berries all day again and made \$1.35, this has been his best day yet. Dad plowed in the old garden all morning, he and the baby and he finished it and disked it this afternoon. Cut up the grass he cut along the ditch this morning and went out and spread a few piles of manure which were in his road for plowing. This afternoon I went down town to get some stuff. Hubby saw me and wanted me to go up and look at Bill Slocomb's buggy, he wants fifty dollars for it. It looks like a good one. I went down to Auntys to cut a ham in two for them and Auntys Alice was at a bridge up at Mrs Buckwells. This has been another beautiful day.

Thursday June 29th

I went over to Art Quambury's this morning and got our post upper and Dad and I put in a post at the gap between the two fields across the gully and put up the bar and let the cattle into the west field, we then went along Iveys line in the gully but couldnt do much to it John was over in Iveys having walked under the fence along the creek bottom. We had dinner on time and got ready and

both of us went down at half past one to Mrs. Smiths funeral. We went up to the cemetery and there was a big crowd there. We went from there over to Barwells and got Zeitha and brought her down, she and I were to have gone for a ride to night but Enah asked some more over to have some music so we postponed our ride. We saw Mrs. Bagley & Mary up at the cemetery and they said Essie couldnt come over to night as it was choir practice but Mary would only she didnt like to come alone, so Dad told her if she saw Winnie coming over to come with her and if not to wait till I called for her, so as Winnie came over to tea I went right after tea to get Mary. I picked her up at Selaesthorne, she had come over to pay her Dads lodge dues. We drove down town to see if we could get Elva but she had too had a cold to come. We had a very nice evening being entertained by Zeithas & Enahs music on one hand and the baby catching moths on the other, he stayed up till midnight and excited for evincing a few cannibalistic passions early in the evening when he bit poor Mary, he was very good and well behaved. Dad gave him a heart to heart talk on the occasion of his offence and I dont think Mary suffered any permanent injury.
