173 DAYS PAST

193 TO COME

May 9, 1907.

Dr. Geo. D. Nicholas, Elyria, Ohio, says:

"Sample of **Pepto-Mangan** was duly received and used in a case of anemia following hemorrhage, with most excellent results. The preparation has always given me satisfaction and I shall continue its use when the occasion arises."

Very warm. Men came to bore the well. Took Elva home at night. Mr. Young was here all day. Mr. Cox and Cecil were over. Maud and mother went down to Mrs. Davy's after cabbage plants. Uncle Lew was here. John cut thistles.
