

Wednesday February 21st

It is still too icy to take a team out so we have done nothing but chores all day and sit around the house a good part of the time. Lila came over this morning and was over most of the day as there is no school, they can't get any coal. Tom was in this morning and took the butter milk can he also went up to the mill for us and got some chop and chicken feed. Will Wright was in this morning to see Dad. about a cow and came back after him to night. about six o' clock Dad. went up with him. I cleaned the separator out this morning and we started separating the milk to night. as we get enough to make it worth while now that John's calf is gone. Enoch and I went down to Church to night, it being Ash Wednesday. After church I went with Marj. down to Doris Patterson's and was there for the rest of the evening. Enoch stayed to chair p. and then went down to Auntie's to wait for me. Sunny freezing in shade.

Thursday February 22nd

Have not done anything much all day, but chores and I cleaned out the chicken dropping boards this afternoon. Jack & boy. eggs in to Jack this morning. Alan Law and Tom brought the butter milk up and Alex Jameison was in for a long visit at noon. I sent in a list of sheep owners around here to the Live Stock Branch. Sunny and milder to day.
