We used to get through as a rule soon after four and would have time to look around the farm or go for a swim in the gym. or go over to the library as they had a fine one in connection with college. I went over to the poultry department and had a talk with Prof. Graham one night. He told me he was going to bring his class down here to see Jack Martin's chickens in a couple of weeks. Two or three evenings they had a lecture or something on which was always interesting. I would have had lots of skating as they had a dandy rink at the college and two or three down town but my knee was bad nearly the whole time. However I did go and skate after a carnival they had and as I knew Hammond who is a second year man up there I got an introduction to several of the girls. I spent one evening with the Graessers who are friends of Miss Scott and the Millman's so taking it all round I had a mighty good two weeks of it my knee being the only drawback!
