297 DAYS PAST

WEDNESDAY

69 TO COME

Devoid of Normal Blood Tint.

The natural color of good health is absent in the case of the chlor-anemic patient; the cheeks, lips and conjunctivæ are pale and the feeling of "well being" is absent. **Pepo-Mangan (Gude)** promptly and efficiently raises the color index of the blood, dissipates the sickly, greenish pallor of the complexion and imparts a general feeling of "well being."

Weather

Temp.

A fine day

I went to Ben Browns
to make cider, but there was
so many ahead of me,
I had to leave the apples.
This afternoon I went to the
mill & got boxes for Mrs
Bingham & some material
for a quilt for little John.
I have it all on the frames
& basted ready to take off
quilt with the machine. John
blanched all day
