346 DAYS PAST

Wednesday

20 TO COME

April 27, 1907.

Dr. J. D. Westrick, Department of Health, Defiance, Ohio, says:

"The bottle of Pepto-Mangan you sent me, as well as one I ordered since, had the desired effect on a school girl (chlorotic) where I had tried other usual remedies without effect."

A fine day. John drew
manure after dinner. Stella
didn't go to school.
