

to make two trips as the colts and horses would not follow the first time. He brought Belle up and we trimmed her feet. Mr. Schway came over after a run, we only had one saw tank left and Bill was rather dubious about taking him as he was small but a very bony little fellow. We persuaded him to take him and try him, so we caught him and put him up as Bill didn't want to take him in the buggy so in about half an hour he was back with the wagon and a crate. He gave me \$4 per head if he will do. This afternoon Dad got the mower out to cut clover seed but it began to rain as he was backing up that he had to come in and it rained hard nearly all the afternoon. I spent most of the hour lettering a card for Dad to mount his 10 ct bet on that he won from Harry Moon at Pin a free concert.

Thursday October 20th

It was too wet to do much here this morning so we went down town to get a load of slabs as Dad found out from Homer that we could. Harry told us they were \$1.50 a load so we hauled one load this morning and two more this afternoon. Mary went down

with us this morning to get Molly to help her with the hay supper on Saturday night, she didn't come home for dinner so when we put on the first load this afternoon I went down to Aunt's to see if she was expecting a ride home but she said she would walk. I visited there till I thought Dad would be back for the next load and then went up, but he wasn't there yet so I went on over and talked to Aunt for a while. He was siding the back wood shed. Ruby went to Turkey Point for a day or two today. Dad and I didn't get home till after five and then we noticed the horses in on the wheat so had to go back and put them out and it was well after dark when we got the milking done. We did the other chores after that and spent about an hour sorting out the chickens after Dad and Sid helped me catch them. Cold & drizzly

Friday October 21st

I went over to Jack's this morning and sold him my coxids, all he would give me was \$2.00 apiece but I came home with a couple of crates and put in 26 of some of which I thought he would call out but he didn't although he said he thought he
