

FRIDAY

89/11

Sunday, February 2

33 DAYS PAST

333 TO COME

April 29, 1907.

Dr. I. N. Smith, Westerville, Ohio, says:

"Your bottle of Pepto-Mangan (Gude) was received in due time, for which I thank you. I am always pleased to say a good word for a good thing. In this case there is no 'Just as good.' I have every assurance that it will be the best for years to come—for all time—so far as I am concerned."

Very cold. Hulba was ill
Maudie had to go to school
alone. We kept George
Davises children for them
to go to the tabernacle, &
the baby kicked up a terrific
racket. I ironed again
that is twice this week
John drew one load
of gravel

March 6-
