135 DAYS PAST

TOGETHER

231 TO COME

Normal Blood Integrity

cannot exist without a relative sufficiency of iron to act as the bearer of oxygen to the body tissues. An easily appropriable hematinic is an every-day requisite in medical practice. **Pepto-Mangan (Gude)** "makes good" the vital deficiency and acts as a dependable and available contributor of iron (and manganese) to the vital fluid.

Weather

warmer

Temp.

I hauled the country. John went for a load of gravel to put in the leim, this afternoon he disked the corn field. Girls went to school.
