### Indication to Operate in Otitis Media.

If in the course of a case of acute purulent otitis media (not at the beginning), or in a case of chronic purulent otitis, there is a sudden rise of temperature, say to 102° or more, accompanied by a rigor, with headache and malaise, and if non-aural causes for the temperature can be excluded, and there are no symptoms of meningitis or cerebral abscess, the mastoid should be opened up and the sinus exposed without delay. Children are an exception to the rule.—Clarke and Firth; *Bristol Medico-Chir. Journ.*

Weather

Temp.

A fine day  
Girls drove to school. John  
ploughed all day. Mr  
Baker was over, this afternoon  
and wanted us to come to  
tea. The second Holmes  
girl was married this afternoon  
and I cleared the kitchen  
We had the Indian papers  
his wife here with books  
& mats, got a clothes basket  
& two hats for the buggy &  
cutting. Marrah.
