150 DAYS PAST

215 TO COME

Therapeutic Suggestions.

There are many cases of partial or imperfectly developed cretinism that, were they early recognized, would be largely restored by the thyroid powder. The doctor should be informed of the symptomatology of this disease and should be most careful that he does not overdue thyroid treatment. Half grain doses may be better than one grain doses, and the drug should never be *continuously* administered.—*Mass. Med. Journ.*

Weather

Warm

Maud & Melba went to Ayler  
after dinner & got Maudie  
a new collar & cuffs & a  
dust cap for me. George  
Chambers was here shooting  
pigeons & Eugene & John  
was building the fence  
between the ten acres & the  
little north field by Bingham.  
Eugene went to Ayler  
Billie & Nipia's
