

Sunday October 23rd

I got up before five this morning and came home and did up the Chores. Mary stayed at Auntys for breakfast. As this was Children's service in church to-day there was no regular Sunday School but they all met there and went over to the church. The choir consisted of children and Nancy Dyer sang a solo. Bill, Barwell read the lesson and a couple of boys took up the collection. In the midst of it Mr. Cornish christened Bill Wonsley's baby. Mary and I stayed at Auntys for dinner to help celebrate Lucretia's birthday. Lucretia was there and had half a dozen very gaudy Cupid dolls with which he decorated the side board much to Aunt Alice's horror. He played his phonograph for most of the afternoon. We came home fairly early so as to get the Chores done and let Dad. get away to attend church with the mowers as they all went in a body to-night. Cecil and Winnie were over here to tea and spent the evening but left before Dad. & Cook got home. They went up to Doc. Linnions to practice some songs for the reception they are giving Mr. Cornish Tuesday night.

Monday October 24th

I started to dig potatoes this morning but about ten o'clock Dad came out with the mowers and wanted to trade jobs so I cut Clover seed for the rest of the day and got the piece south of the mangels cut. Our old mower is pretty rattly and Frank had it wired up but it seemed to be getting looser so at noon we took it up and Dad. went down and borrowed Prop's. It went better although it had a broken section in it. Dad. got over two rows of potatoes long but didn't pick them up as it doesn't feel like frost to-night. Mary went down with the church money this afternoon and stayed at Beule's for tea and then went to the girls meeting I went down after tea and chatted Auntys some and then went to band practice. Wednesday

Tuesday October 25th

I started to cut the piece of clover seed north of the mangels this afternoon morning and nearly finished by noon. The old mower bothered considerably the first few rounds when the grass was tough and I couldn't get any speed out of the old team but Dad. got me a yoke and things went much better after that.
