

May Friday 28 1926

Had a big day on my milk route peddling 120 quarts of cow juice. Felt rather tired after the night before so retired early.

Saturday 29

Jean and I both had to attend a length meeting of U. F. Y. P. O. directors in The Community Building so didn't get a chance to get a milk shake or have a chat in the Dodge.

Sunday 30

Helped Jimmie milk so he could go with me on route. I even had some time with him. Busy all afternoon working for dairy. Buck, Sidney, and McCreary Company came down for a while and I felt so tired at night that I stayed at home for first time in months. In bed 8:45.

May Monday 31 1926

Gave Jean her first ride behind 'Dolly of Bendemeer' when she took us for a pleasant drive around the block. Spent the last couple of hours of May 1926 listening to the radio.

June Tuesday 1

Started another month off right trying to sing and dancing with Jean. Home and in bed at 2:15 but not without getting caught in the rain which started when I was almost home but later came down heavily. Jim and I drove up to hospital at night to see Samson even if it was raining.

Wednesday 2

A fine spring day. Alip drove truck to Goddard for Geo. Telfer, Andrew, Jimmie, and I went up to Clarence Bess to get ready for play. Rather a long session and didn't get back until late. Made a record when I peddled 124 quarts.
