133 TO COME

Definite and Dependable.

A distinctly apparent blood poverty, especially when verified by hematologic examination, requires a definite and dependable anti-anemic. Pepto-Mangan (Gude) not only restores the red cells to their normal condition but also creates new erythrocytes and materially increases their hemoglobin percentage.

Weather

Temp.

A fine day  
cool. John & I have been  
digging potatoes in the  
garden. I finished Mellas  
apron & washed Maudie's  
head, red skin & pressed  
it. Melba has been doing all  
the house work. Maudie &  
Audo was down for apples  
Fred Jorgensen & Albert  
Asseltine was drawing  
the boat here. I have been
