

Sunday July 19th

Harry B. got ~~the~~ up a little after 4:30 this morning and as he got in our bed I thought I might as well stay up, so I killed a hen that I shut up last night and had the milking done before six. I went at Prints sign before breakfast and again right after breakfast and worked at it till noon before I finished it. This afternoon I shaved and lay around till about four and then we all went for a drive up the fourth concession and back the third. We called in at the Snights but there was no one home except an elderly lady whom we did not know but who knew me when I was Harry B's size and who seemed very glad to see us and was delighted with the children, she was a very nice person to talk to and we learned later that she was Miss Walker, Mrs. Snight's aunt. We stopped in too at Cam. M. Brides and Mary borrowed a couple more Saturday Evening Posts from Mrs. M. Brides. Herb Law has been ploughing there for wheat. Nat. Riches

Monday July 20th

I went over home this morning with the team and

wagon and Dad. I took his yearling pig down & shipped him. He was a nice one and Jack M. Brides gave him full weight and allowed Dad. full price although he went 250 lbs. Dad got beer \$31.⁰⁰ for him. They were 12.²⁵. Dad gave me \$26.⁰⁰ of it and I took it over and paid my bill at the planning mill. We got back to the farm at noon and I come right on home. I saw cut the front field of wheat to-day with the tractor and had Jim on the binder to run the sheaf carrier. I guess that would be about all he would have to look after as the grain was so even. I went down to hand practice to-night. Very hot, sultry.

Tuesday July 21st

We were late getting around this morning and I milked late purposely as I knew I would have to milk late to-night. I spent most of the forenoon cutting weeds that I couldn't get at with the mower the other day. Carl Lemmons called for me at one o'clock and we went down and picked his Dad. up and then on to Nanticoke where the Old Day's Reunion was in full swing. We had a fine time down there as it was shady and they didn't work us too
