44 DAYS PAST WEDNESDAY 322 TO COME

Gastric Aphorisms—No. 3.

Delayed motility may arise from atony, hyperacidity, neurosis or pyloric obstruction. Such cases must be studied closely for several days before a campaign of treatment is instituted.

Pain or discomfort anywhere within the abdomen, along the esophagus, the pericardium or diaphragm, more marked in the upright than in the recumbent position, suggests ptosis.—Bell; Med. Herald.

Weather

Temp.

a lovely day
only it was cloudy & snowed
all day. Earn & Mary + his
wife came home when John
came from taking the
milk & stayed all day, John took
them home to night. &
Maudie & Nella went along
Maudie gave her an under
waist & a pair of shoes & Nella gave her
a handkerchief with tatting
on. The roads east are so
no one can drive through them
I never remember the like before.
