Suggestions About Eye Injuries.

In wounds of the cornea, the eye should be thoroughly cleansed, any projecting iris cut off, atropia and argyrol dropped into the eye, and the same sterile dressing applied.

If the sclera is wounded, the conjunctiva should be drawn over the wound and stitched together to protect the contents of the eyeball. We may also in many cases cover wounds of the cornea with a conjunctival flap by the Kuhnt method.

J. A. White; Int. Journ. of Surg.

Weather

Temp.

Very cold The girls
drove themselves to school.
Then in the afternoon
Maude Thompson & I took
Dolly and went to Aylmer
John & I had went to Grandold
Sale and after Eugene got
the chores done, he went also
He was invited to Mrs. Glines
to a party, but John didn't
feel inclined to go so we
stayed home Billy & Polly $\frac{1}{2}$ Vgd. 4
