

Miss M. Queen. It was drizzling when I started home so I went down and spent the night at Auntys.

Monday April 30<sup>th</sup>

I got home this morning just as the family were at breakfast. Frank disked on the pea ground all morning and said it worked fine. Dad. trimmed up all the ewes and I spent the morning with him although I didn't do much to help. We also docked the two last lambs. This afternoon Dad. and Frank went out to England's to Crin's funeral. and Dad. took Eiah and the baby down town and called on them on his way home. Eiah wanted to practice a duet with Mr. Johnson. I sowed a few lbs of clover seed on the oats at the road end of the field as Dad. didn't have quite enough seed to grower it all when he drilled it. I also sowed about a few lbs of rape seed on the plum orchard and I think I got it on a little too thick. Alan Law brought back the manure spreader. I gave Tom about a setting of eggs to night. It is the only way I can pay him for hauling the butter milk. Art. Guahery was in to night to ask about his new cow. Milder but cloudy.

Tuesday After May 1<sup>st</sup>

Frank drove Dad. down to catch the nine o'clock car for Simcoe
