

Sunday April 3rd

Mary, Frank, Sid. & I went down to Sunday school this morning and Euah went down to church. Mary & I stayed at Aunt's for dinner. Winnie Lilo, & Cecil Younis were there. Aunt's baby had gone to Turkey Point with Dad Hamaker. This afternoon Mary & I went up to the Bayley's as Mary wanted to tell Mr. Bayley to make her back case of cherry. Cecil told us that it could be polished up so well and to look like walnut and was not much dearer than pine. Mr. Bayley went home with you Essie the instructions. We went down to Aunt's again for a minute or two and then over to the farm calling at Aunt Lucy's for Aunt Alice who had gone on ahead and who came over to the farm with us for tea. We found Mr. Jones here when we arrived. Mary & I went back to the woods for about fifteen minutes before Dad & I did chores. Frank was visiting out at Bill Donald's so some places wasn't home for tea. Dad, Euah & Sid. drove Aunt Alice home with Mexico after tea. Very mild all day but a cool breeze.

Monday April 4th

Frank went down and gave Aunt Alice a day in the garden to-day, raking up and getting it ready for the spring rush. Dad & I took down the stove pipe from the kitchen stove this morning and cleaned it out as

the stove has been smoking badly lately. Dad spent the rest of the forenoon doing chores and I started to rake up the lawn. This afternoon we went back & got the rest of the turnips in the pit. There was more than one load & we hauled them in two small loads as the ground was soft in spots. To-night Mary & I went down town, she went to the Girls Auxiliary and then she and Aunt went up and said good bye to Miss Monteith as they are leaving for Toronto to-morrow. I went to hand produce but there weren't a great many there and we just called as some of them wanted to go to the big dance in Nicoll's Hall which Johnny Walker and several others are getting up for the organ fund. Mary stayed at Aunt's all night so as to be there to stay with Aunt Ida to-morrow while Aunt & Aunt Alice go up to help Lil a house clean. It has been quite hot to-day and things are drying fast.

Tuesday April 5th

I sowed clover seed on the wheat this morning. Frank helped me carry the seed back and then he went up and he & Dad started to patch the roof of the shed at the big barn. I finished sowing about half past eleven and as I was very hot and thirsty went over to John Wessie to get a drink. I got a drink of water and Com. then treated me to a cup of cider which is beginning
