271 DAYS PAST

FRIDAY

95 TO COME

To Make Good the Deficiency.

The logical method of attacking Anemia and consequent general denutrition, is to supply the material in which the blood is deficient. Pepto-Mangan (Gude) is the ideal hematic restorative, and it throws no strain upon the functions of digestion, assimilation or excretion, and is, at the same time, pleasant to the taste, readily tolerable and devoid of constipating action.

Weather *A fine cool* Temp.  
*day, had a fine day for the*  
*fair. Mrs Bingham, Melba &*  
*Grace went to the fair. Maudie*  
*& I went with Eugene. &*  
*John road the wheel. I road*  
*home with Mr & Mrs Cox,*  
*because I got tired. Eugene*  
*was here for dinner. John*  
*ploughed this forenoon.*  
*Melba Grace went home*  
*with Eugene to night.*
