50 DAYS PAST

316 TO COME

March 20, 1907.

Dr. George F. Hermann, Cincinnati, Ohio, says:

"I have had splendid results with your Pepto-Mangan (Gude) in a severe case of anemia—young girl, 16 years of age, whose case had been diagnosed as phthisical."

Dec. 5, 1906.

Dr. Wm. W. Franquer, Pontiac, Mich., says:

"Pepto-Mangan is surely a grand blood-builder."

A very windy day & about
two in the afternoon it started
to rain & freeze & is still at it.
Harder than ever. John drew two
loads of gravel. We are water
ing the cows out of the well
by the house started last

Saturday, I washed to day &
have brought them all in
& ironed some & have the
others on the clothes horse.
Girls drove to school

Isaiah 5-
