

Friday October 29th

We put off the load we hauled last night, first thing this morning and then Dad went out and raked up the rest of the field. I mowed away what was up there and then dug the rest of my rose border before he came in. we then went out and loaded till twelve but didn't have much of a load. After dinner we put it off and hauled two more. Frank got home early and helped us mow away the first and the second we left in the barn floor, we got all the stuff in that had any seed in it but there is still a load of couch grass out there. To night I put the little saddle on Joe and took her down to give the girls another lesson. Essie had to go to choir practice but May rode down to Perry's and we got May to go for a little ride. the little saddle was a great improvement. I went down to Auntie's for a while before I came home. It has been windy & cloudy all day.

Saturday October 30th

I cut Corn all day but didn't get on extra well as it was so windy. Frank and Dad took a quiet to the mill this morning and also took the other book case and a lot of books & the old sofa down to Auntie's and brought

back a little sofa that Elva gave me. This afternoon they put off the load of clover seed and went out and got the load of couch grass, it took a long time to put it on as it was so light and the wind was so strong. Dad fixed Elva's shelves in the painting closet. To night Frank and I went down town and he took a basket of hickory nuts down for the ones at Auntie's, he went to the picture show and I got my hair cut. There were a lot in town and a lot of kids out as they are celebrating is right as Halloween. It has been a nice day but cloudy & windy.

Sunday October 31st

I walked down to church this morning and Dad, Elva & the baby drove down they left the baby with Auntie Alice and then went there for dinner. I brought Joe home and we three boys had dinner alone. After dinner I drove Dick down town and got May & Glad Law who is up here for a week convalescing and we drove out to Renton I wanted to get the number of the ram we sold to Nixon & Boyer last fall and we had a great time finding the place as I took the wrong turn at Wiggin school house, we did find it at last but they didn't know the number but said they would find it and send it to me. It was late when we got back but I stayed at the Bayley's.
